Humer, No. 42 Last water-si.

In attention of the public is called to this article as being superfor to Pearholt Salacrates in its effect—riving cooker; a more delicate appearance and fixor; and also on more wholesome—bodo being more coopenial to the human system than Potash. It is more economical than Pearholt Salacrates—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s.

Washing & Cleansing Powders which will be found, on trial, a very superfor article, saying much labor of washing Gloths, &c. It will soften hard water. To Frigineers and Machinists it is invaluable for removing greess from Machiner, and other iron works leaving the iron perfectly dry, at do thable to rust.

Directions for use are printed on each package

ITHE following advertisement was published in May I 1819, in the Boston Daily Times, and various other mewspapers in the United Batter, by James G Whon, Esquish owner of the "Woodworth Fatent," shortly after I had advertised my "PATENT STATUNARY CUTTER PLANING, TONGUEING, AND GROOVING MACHINE, throughout the United States: "FLANING MACIJINES.

"I take fits method of answering the frequent inquiries, by lettur and otherwise, as to my opinion; upon the various notices through the papers, of the stationary Knilé Planing Machines attempted to be palmed of upon several persons ignorant of their true worth. I would state for the information of their true worth. I would state for the information one offixed by several pretending inventors, described in the 16th volume of the Repertory of Arts, invented by Sannad Benthan, in the year 1291. A like machine was patented in this country by one Kugler, some six even years same, and another one put up by Albert Richards, or the state of the part of the "PLANING MACHINES.

at the cost of the machine and five per cent for my trouble.

JABLE G. WILSON,

May 19, 1819.

I deny that any person ever saw or heard of auch a machine as mine until I invented the same. Sad machine was operated at the month of August, 1818, and no machine before this could do so much work, and do it as well as mine. In reply to the above airwritisment, and in order that the public may be assisted that I mean what I say, I will offer to pledge of the Theorem and the August 1819, I will offer to pledge of the two deeper and the same time, and do it as well or better than TWO or the "Woodnorth" mechanes The trial to be made at my Steam Mill, Bonder St., Eant Boston, Mass, or at such other place as may be convened for such a first Joseph P. RETOLUTIONARY SERMON "They that take the sword shall perish by the

Solu ers and Countrymen: We have met this evening perhaps for the last time. We have shared the toil of the march, the peril of the fight, and the dismay of the reatest alone; we have undured the cold and hunger, the Southney of the internal foc, and the cominge of the foreign oppressor. We have sut night after night, teside the camp-fire, we have our therhead the roll of the resulte, which called us to duty, or the best of the tattoo, which gave the agnal for the hardy sleep of the soldier, with the earth for his bed and the knapsock for his pillow.

And now, soldiers and brethren, we have met in the teec, ful valley on the eve of hattle, while the

bed and the knapsack for ins pillow.

And now, soldiers and brethren, we have met in the peaceful valley on the eve of battle, while the sunlight is dying away beyond you der leights, the sunlight that to-merrow morn will glinner on scenes of blood. We have met, and the whitning kents of our encampment; in the time of terror at a gloom have we gatheted together—God grant that it may not be for the last tin o.

It is a solemn moment. Brethren, does not the solemn voice of nature seem to echo the sympathes of the hour? The flag of our country droops havely from youder staff—the breeze has died away along the green plant of Chad's ford—the plant that spreads before us glitters in the sunlight—the heights of Brandywine arise gloomity and grand beyond the waters of youder stream—all lature bolds a pause of silence, on the eve of uproar and bloodshed and sinfe of to-morrow. They that take the sword, shall perish by the

And have they not taken the sword?

Let the desolated plain, the blood sodden valley, the barned farm-house blackening in the sun, the sucked village, and the manged town, answer—let the whitening bones of the butchered farmer strewn along the fields of his honsted, answer—let the starving mether, with her bate cheging to the withered breast that can afford no sustainable, let her answer with the death-math chaging to the withered breast that can afford no sustraince, let her answer with the death-rattle ranging with the tautoming tones that marked the let strengtle of het life; let the dying mother and her babe answer.

It was but a day past and our land slept in the quiet of peace. War was not here; wrong wantet here. Thank and wee, and missry and want dwelt not among us. The Commercial and the Veto.

The Commercial, in order to make out that the Sentinei was wrong in its opinion that the Governor's reasons for Vetoing Mr. Martin's bill cannot be gainsayed," quotes sundry paragraphs on the subject from the Kenesha Democrat, Janes-ville Standard and Monroe Scatingl. We have end them all attentively, and while free to admithat they me very good samples of partisan abuse must certainly deny that they offer the first semblance of intelligent argument. Indeed there is no attempt by the se papers, any more than on the part of the Commercial, to "gainsay the Governor's position." It is found much easier to abuse than to answer him. The Kenosha paper rates the Governor for consulting his own judgment and conscience rather than those of the Legislature; the Monroe Scalinel twits him with attempting to stop internal improvements; and the Janesville Standard threatens him with "burning in effigy," for during to do what he thought his eath and du y required. By which of these journals is the overnor's position gainsayed? Will the Com-

nercial tell us? In the same connection and with a like degree truth, the Commercial hazards the cool asser on that "the Governor's action is viewed with qual disapproval and indignation in all parts of he State, and by all who have expressed an opinion, his organ in this city alone excepted." The commercial may be, and no doubt is, honestly ignorant of public sentiment and the opinion of the press out of this City. But no such excuse can be urged for its gross falsification as to the posisentinel, Free Democrat and Wisconsin, have entorsed the Governor's Veto unqualifiedly. It is which thus "proves the rule." The public may, udge from this sample what small reliance is to e placed in its statements, and how little bood bould be paid to its strictures.

THE FOX RIVER IMPROVEMENT.

llesers, Editors : -Several of your late numbers have contained articles on the Fox River Improvement, the tendthe Oratorio of the Seasons, which will be peris to hinder the progress of the work, if not to defeat it altogether. However that may be, or whatever may be your own policy in regard to this Improvement, I presume you will not refuse to open your columns for the expression of the opinions of those, who may differ with your corespondents that have taken side against us, and who favor the immediate completion of the work-

In your daily of the 9th inst., appears a comnunication from Neenah, which would be entitled o no consideration in this neighborhood, but for your endorsement, saying that "it comes from a AMERICAN HOUSE.—Mesors. Kame & Sous, the gentleman who is perfectly familiar with the history of the main building and finishing the new pletion." The public hereabout dissent from your editorial, and especially so, from the latter fore the public again with largely increased accommodations for the travelling public. The control in the completion of the work. The people Hotel is now 4½ stories high, with a frontage of of Green Bay know well, both the friends and the 75 feet, and two wings extending back 80 and exemies of this Improvement. Before going farther, I beg leave to set you right about the interest of your Neenah correspondent. Ever since the commencement of this Improvement, different localities have sought to build up town lot speculations by making the termina at certain points.-Among others, a few gentlemen, rather notorious in this State for their prolific policies in town speculations, having set down at the foot of Wintebago Lake, have conceived the notion of making their locality the town of Northern Wisconsin;o effect this the only means of giving it any importance whatever, is to stop the downcard navi-gation of the Fox at that point. One of those nen, (the ring leader,) proclaimed at Milwaukee ast fall, that the idea of improving the great rapids of the Fox was all a humbug ! They propose to have the trade of the Fox and Wisconsin Valeys, after having reached Neenah or Menasha, ind its way to Lake Michigan, not by going down the Fox in boots, but over a mil road to Maritowee. Do you perceive, gentlemen, where the interest of these worthies lies, your Neenah man

among the rest? Leaving this very great friend of the Fox River improvement and his attacks on the several gen-Improvement and his attacks on the several gen-tlemen of the late Board, to be treated by them according to their sense of his merits, I shall only speak of one of the very grave objections he brings against Mr. Martin's contract—to wit: that by it the State has pledged the revenues of the work, to Mr. Martin to reinburse his outlays, and that thereby it will be amburshed to set to be work, to Mr. Martin to reimburse his outlays, and that thereby it will be emburrassed so as to be useless. There was once a constitutional couvention in this State, in the proceedings of which, while the article Internal Improvements was under consideration, a proposition (in reference to this particular improvement) was made to allow the State, in certain cases, to pledge the revenues of the work for its completion. Has your Neenah correspondent forgotten who spoke and voted in favor of the proposition? It was good dectrine then, before being applied to Mr. Martin's contract—why not now? yide Journal 2nd Con. Convention, price 346.

why not now? vide Journal 2nd Con. Convention, page 345.

The great effort in this communication, as well as in all others that have appeared in your columns on the subject, seems to be to induce the belief in the public mind, that the people of Brown County are all in the wrong; instead of being as they are in truth, the deeply injured party, from the beginning. The Legislature withheld from the people of this county, in the choice of the first Board of Public works all voice in its management. Now, why were they thus proscribed? No other section, either remote or on the line, is so deeply interested in its completion. Why could we not be trusted with at least one of the five commissioners?

ALLEGATE ALLEGATE AND ALLEGATE ALLEGATE

defeated. Gibes, geers and sneers were east on the idea of improving the great Rapids. The managers at the great locality at the foot of Winnebago Lake projected and began their two plank Roads; one to pass down by the great rapids, (now that the improvement of the river had been abandoned) and the other towards Manitowoc. Is it strange that the people of Brown should complain? Should take exception to the action of the Legislature, and the Board of Public Works? We did complain, but not despair. We felt strong in Legislature, and the Board of Phone Works? We did complain, but not despair. We felt strong in the justice of our cause. We appealed once more to the Legislature. A redeeming spirit was found to exist. A new Board was created more satisfactory to the people.

In the meantime, one of our oldest citizens stepped

In the meantime, one of our oldest citizen stepped forward, and seeing the embarrassed state of the fund, at the risk of his whole fortune, offers to take on his own shoulders, the completion of the work. His proposition is made to, and accepted by the Legislature, who pass a law to provide for a contract between him and the state; he enters into Bonds according to law for the completion of the work. After progressing with his contact on the great rapids, for a whole season, expending some 40,000 Pollars, and giving an entrest that this work rould shortly be completed, a new phase is suddenly put on the whole matter, by the appearance of an Executive Message! Governor Farwell (?) has discovered that the scrip issued to Mr. Martin, on estimates for his work, had been done under an Act of the Legislature that was unconstitutional and forthwith the Executive power of the state is interposed to stop the was unconstitutional! and forthwith the Executive power of the state is interposed to stop the work. It had been formerly supposed that a solemn law, could only be declared unconstitutional and void, by the Judicinery of the Country. But under the administration of Gov. Farwell (some say Gov. Orton.) in this age of progress and teform, it is found that the Executive Branch, when enlightened by eminent coinsel, and to accomplish a great public feat, may usure both powers, and dispense with the slow, uncertain, and unnecessary aid of the other branch altogether. It was surmised by some that the Executive, after theoring out the suggestions of the message, would pake, mised by some that the Executive, after throwing out the suggestions of the message, would patter, take the opinion of his legal advisor, the Atronay General of the state, and if not satisfied with thit would refer the question to the proper tribunal. But not so. The Fox River Improvement under Mr. Martin's energies had begun to go forward; there was reason to hope (or to fear) it would become a fixed fact. No time was to be lost; the state must be saved, and the Governor refused to do a which give under the law.

the state must be saved, and the Governor refused to do a phin duty under the law.

Mr. Martin appealed from the Executive to the Legislatine. After three months discussion and against the fletcest opposition, a majority is found in both Houses of that body to sustain him, and a bill is passed for his relief. But the Governor, abetted by his privy counsellor; by the letter writers, your Neemah correspondent included, and the potent columns of the Sentinel, is more than a match. He vetoes the bill!

Now gentlemen, do you suppose the intelligent people of Wisconsin will understand the position of those two parties, and the meits of this controversy? How stands the motter? The improvement was for three years under the management of its enemies, those at least of doubtful friendship to its success. They took care to appropriate to themselves large salaries, but accomplished no valuable work. They squandered two hundred thousand dollars—all that was available of the fund, and brought the work to a dead stand. hundled thousand dollars—all that was available of the fund, and brought the work to a dead stand; In this emergency one of our citizens steps forward, takes the work with its onerous responsibilities on himself, laboring most faithfully, and successfully for 10 months, spending \$40,000 of his own money, gives its friends good hope of its speedy completion, when lo! its old enemies, headed by one of them clothed with a little brief suthority make a destardly sugarit to tomphawk mented by one of them clothed with a little brist authority, make a dastardly attempt to tomhawk and destroy both it, and Mr. Martin together.

The people will pass their judgment on this proceeding—of that judgment we have no fews—the work is suspended, not defauld. It is one of paramount public concernment, and the public will eventually take care to protect its own.

I am, gentlemen, very respectfully, Your obedient servant, ALBERT G. ELLIS.

THESE celebrated Bitters prepared by Dr. C. M. Jackston, 120 Archest, Philadelphia, are performing autorishing cures throughout the whole country. We can bear witness to their curathe powers in the case of a friend of ours who had the Liver Complaint, and who had their almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly affected we recommend them to those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the dis-case spoken of, and many others to which 'flesh is heir to. There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Archest., Philade phis, of Jackson, or his agents throughout the country.

The southern mails, late as due, have arrived—
Mexican dates to the 3d inst., received at New
Othern's state that a commercial crisis was anticipated at Vera Cruz. The discontent in Tampico
was unabated. The Embassadors of Great Britain, France, Spain, Russin, and the United States,
had addressed remonstrances to the Mexican government against the unfairness of the Custom
House regulations in Mexico, which made imports at Matamoras much less than those at Vera
Cruz and Tampico. To this the President replied
that the matter was before Congress, whose members alone had the power of changing the laws.

MISCELLANEOUS. G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING CERTIFICATES OF RECOMMENDATION. CERTIFICATES OF RECOMMENDATION.

Dy the present, I attest my entire satisfaction with the prosed, free proof. The invented by Mr. Greesde: having found their perfectly secure during snowstorms, rains, wind and linease cold. I hereby take occasion to recommend said root covering to every house-builder, inviting them to salisy them relies by occuber inspection of the excellent quality of the same.

Druggist, 374 W. Waterst, 2nd ward. Milwaukee, Feb. 3, 1622.

Milwaukee, reports to overy respect, as to the roof of my house, covered with the same tile, invented by Mr. AUGUST KEUG,
Brewer, Chestnut-st., 2nd ward.

Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed recoing Tiles, invented by Mr. Graessle, have found them perfectly natworing the purpose intended. Their practical and sagachous construction recommend this kind of Tiles, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and charmels not only oxelude the entering of show or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an aboditely 'moreable position and an intinate councertion. Besides this, Mr. Gravesle's method of burning the Tiles, deprives them of the injurious tendency to abord water, making them in this way durable; and joining to the above moditor virtue, bit, that of dispensing with repairs. The undersigned therefore consider surselves fully justified in recommending to the building community the above roof-ing Tile as an excellent and valuable material.

THE HUMAN PRAME ... Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Delty. Every joint and sinew works harmonlously with each other, and upon the natural performance of every function depends the inclinal performance of every function depends the incalchrul action of the whole.

PAIN

Disorganizes the whole system, it prostrate the nerves, it releases the muscles, it weatens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it parallizes the absorbents, and renders them unable to take up and replete the warted form with sound material. From the way moment that this beautiful masurplece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Beat, the Yeet, the Back, the Knee whether is not set from internal derangement, or it the result of external injuries, till the pain exercises its influence throughout every portion of the luman system. Not a nerve or a muscle excepts its prostrating influence.
